零售批發庫存管理系統

TPOS (Professional)
Point of Sales Management System

TPOS (Professional)「零售及批發庫存管理系統」乃一套完善的 POS 解決方案系統，功能涵蓋範圍全面，擴充性強。能連結軟硬件及前後台作業，有效地縮短前台結帳及後台批發作業流程。其系統分別包括有採購、批發、庫存和門市4大部分，您只需使用條碼閱讀器掃瞄貨品條碼，或輸入貨品編號便可即時出貨和入貨，單據文件即時自動列印，以及可實時查詢貨品的庫存。藉由系統數據分析，準確地進行進銷存貨品管理，能掌握詳細或綜合營業分析及暢滯銷商品等管理資訊，使您能輕易提升業務效率和在市場上的競爭力。

TPOS (Professional) Point Of Sales Management System is a comprehensive set of POS solution system, its function coverage is complete and expansionary is strong. The system can link up with the operation of hardware for front-end and back-end office; it can effectively shorten the workflow of the front-end (shop) check out and back-end (office) wholesales operation. The TPOS (Professional) System includes the four main parts of purchasing, wholesaling, inventory and retailing respectively, you can manage the product entry by using a barcode reader, enter the product information or the product code for Stock-In and Stock-Out operation. Bills and documents will be automatically printed instantly, and real-time product inventory can also be processed. By analyzing the system data, product management can be accurately processed, thus the detailed or integrated business analysis and the top-selling, non-movement and slow-selling products management information can be collected, so as to let you enhance business efficiency and the enterprising market competitivity.
